

SP-1310BTD-ASN

全自动免烫贴袋机
Full-auto iron-free pocket sewing machine

性能优势

免烫冷折，省去烫袋设备和烫袋工序；
采用伺服系统控制，缝制花样精确，线迹美观；
独特的快速换模装置，快速进行产品尺寸或款式的转换，节约调整时间，提高工作效率。

效率

缝制一个口袋只需9秒
实现从口袋折边、裤片的定位、订口袋、套结、收料只需要一台机器，无操作技能要求。

适用范围

适用于各种面料外饰口袋贴袋，侧重于牛仔裤及中厚料等类似缝制品。

Performance advantage

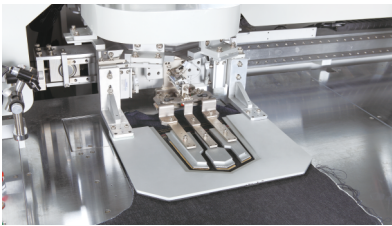

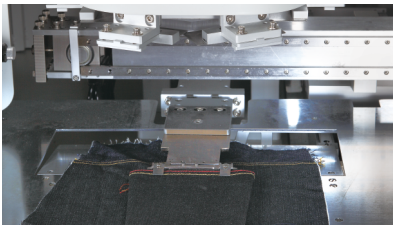

Non-ironing and cold folding, eliminating the need for hot bag equipment and bag hot process.
Controlled by servo system, the sewing pattern is precise, the stitches are beautiful and the performance of the equipment is greatly improved.
The unique quick mold change device can quickly change the product size or style, save adjustment time and improve work efficiency.

Efficient

It takes only 9 seconds to sew a pocket
Only one machine is needed to realize the folding of pockets, positioning of trousers, pocket ordering, tacking, and material collection. There is no requirement for operating skills.

Scope of application

Suitable for denim exterior pockets, focusing on similar sewing products such as jeans and medium-thick materials.
